SECURED TWO OWLS FROM NEST ON STAND PIPE

While Alderman F. C. Conrad and Cashier Lou Denny of the City Water company were examining the stand pipe Monday they came on a nest of owls of rather unusual appearance. They secured two of the young owls and they are now on exhibition in the clothing store window of Berney Harris, who is president of the Owls lodge of this city. The birds are of light cream and tan color and are said to be valuable. They have a monkey like face and are said to be a prairie owl sometimes found in the northern states.

FUNERAL SERVICES WEDNESDAY P. M.

The funeral services for Mary Lu-
cretia Middleton, the daughter of Al
R. Middleton, living at 1004 East Ed-
ward street, will be held Wednesday
afternoon at the family home, con-
ducted by Rev. Claude J. Miller of the
First Christian church.

Miss Middleton was born in Mary-
ville, March 15, 1888. She was a
young woman of kind and gentle dis-
position and she lived a life of ser-
vice to her parents, brothers and sis-
ters. Her mother died about five
years ago, and her faithful, loving
devotion to her during her illness is
well remembered by all who knew her.
Mary was a true Christian girl, a reg-
ular attendant at church and Sunday
school, and before she was compelled
to give up school days because of
home cares, she was a good student
at school and was a favorite with her
teachers, because of her sweet gentle
disposition. Her health began failing
a year ago, and everything possible was
done by her family and physicians for
her, but the ravages of the disease
could not be stayed. Burial will take
place in Oak Hill cemetery. She is
survived by her father, two brothers,
Frank and James, and a sister, Pearl.

Mr. and Mrs. Saunders will return
later to their home in Colorado. An-
other daughter of Mr. and Mrs. Jack-
son, Mrs. Paul Ream of Kansas City,
will arrive in Maryville Tuesday
night, when a complete reunion of the
family will be held.

St. Louis, was in Maryville Monday on

at the Missouri state university, and
both located in St. Louis for the prac-
tice of law, where they have met one
another in the trial of cases and have
been associated in the trial of cases.
He says Forrest is doing finely and
says it's no wonder, because he is all
right.

ing several months here in company
with his wife and little daughter at
the home of her parents, Mr. and Mrs.

interests. Mrs. Harris and their
daughter will soon meet him at their
home at Waurika, Okla. Mrs. Harris
is waiting for a few days' visit with
her sister, Mrs. Luster Johnson of St.
Louis, who is expected soon.

VICTIM OF A JOKE

M. E. FORD ASKED TO SPEAK TO
LAW AND ORDER LEAGUE.

PREPARED A SPEECH

And After Working On It for Two
Days Was Told About It—He
Still Has The Speech.

Assistant Prosecuting Attorney M.
E. Ford was the victim of a joke that
was played on him last week by At-
torney W. E. Wiles. It happened this
way:

Attorney Wiles called up Attorney
Ford on the telephone on a matter
of business. Mr. Wiles, when seeing
that Mr. Ford did not know who it
was that was talking to him, said:

"This is Rev. Parvin. We want you
to deliver a talk to the Law and Order
League that will meet Saturday night
in the M. E. church, South."

Mr. Ford tried to beg off, but finally
said that he would get up a speech and
would be on hand. He proceeded at
once to get busy on his speech, and
worked all day Friday up to 10:30
o'clock that evening and also on Sat-
urday up to 4 o'clock in the after-
noon. He spent most of his time dur-
ing these two days on his speech.
When Mr. Wiles saw that Mr. Ford
was so busily at work on the speech
he concluded that it was time to tell
him, seeing that the joke had gone far
enough. Accordingly, he did. It is
not necessary to add what took place,
as a person would know how one
would feel when he has been working
for some time on a speech to be de-
livered, to find out that it was all a
joke.

Attorney Ford says that he still has
that undelivered speech, and is ready
to deliver it at any time he may be
called upon.

BROUGHT BACK SPECI- MENS OF MINERALS

from a three months' stay in the
northwestern part of Colorado on his
farm. Mr. Holt brought back with
him several specimens of minerals
that are being mined on the Holt farm
in Colorado. As yet nothing much has
been done with the property, but it
promises to be a rich one for the
owner.

Childress, have purchased a hand-

ing car. No one in the family will en-
joy the car more than Mr. Childress,
Sr., and his wife. Mr. Childress is
recovering from a severe trouble with
his eyes as a result of blood poisoning
in one of his hands. He had not been
sick a day before in all his life of 78
years, and it is no wonder he wanted
to celebrate his recovery from the
first pain he had ever suffered by buy-
ing a new automobile.

Mr. Underwood says a safe Democrat can be elected president. Most any Democrat should be safe if the Republicans nominate Taft.

For many years the United States has been affording sufficient protection to the sugar business of this country to enable it to build up the dirtiest and most shameless of all the great trusts. It showed its appreciation of needless protection by becoming an importer and bribing government clerks and robbing the hand that fed it by false weights. Just now there is said to be a shortage in the crop of sugar beets in Europe, and the ladies can tell you who pays the tariff on sugar.

It would have been a miracle if Col. John Jacob Astor, the divorced millionaire, had not been able to find one minister out of the 168,000 in this country, willing to give him another trial to the accompaniment of a good fat fee. The agitation, however, is well, and it is to be hoped that the seeds are sown that will bear fruit in future and give the millionaire set a greater respect for the sanctity of the marriage vow. The greatest enemy to honest marriage is the dishonest divorce. Any way, let us hope that Col. Astor and his child bride be allowed to sink into that oblivion to which decency would consign them.

Taft's Record "Indefensible."

Nearly three-fourths of Mr. Taft's term of office has passed into history. He has had sufficient time to have made progress on lines along which he promised to proceed when he was a candidate for the high office he holds. He made his campaign on a tariff revision downward issue, and today the country is in the grip of a higher tariff tax than ever before in its history, in spite of the fact that the president has had two separate and distinct opportunities to keep his word. In his three years of office President Taft can be credited with having kept Ballinger in office until the country was nauseated; to have almost succeeded in his attempt to give Alaska to the Guggenheims, and with having quietly co-operated with the food dopers in their campaign to drive Dr. Harvey W. Wiley out of public life. To this "indefensible" record should be added the president's action in framing rejected peace treaties with two nations with whom we are not in the slightest danger of ever going to war.

the 4:23 Burlington train for a short visit in St. Joseph. They will be at home on the groom's farm, about eight miles east of Ravenwood.

Welcomed a Tarkio Bride.

Mrs. H. L. Raines and little daughters returned Monday night from several days' visit in Tarkio with her parents, Mr. and Mrs. T. J. Emmert. Last Friday night Mrs. Raines attended the most brilliant social affair that has ever been given in Tarkio. It was a reception given by Mr. and Mrs. W. F. Rankin, in their beautiful home, to welcome home the bride sister of Mr. Rankin, Mrs. Morrison Giffin, and her husband, who arrived in Tarkio Friday morning from Geneva, Switzerland, where they were married on Wednesday, July 16, in a little chapel there, the father of the bridegroom performing the ceremony. Notice of the wedding and their wedding guests was given in The Democrat-Forum social column the day previous to the wedding day. Mrs. Giffin, the bride, is known socially in Maryville, as she visited Miss Martha Reid in Maryville last spring, and was her guest at the Twentieth Century club's reception at the home of Mrs. S. G. Gihlan. Three hundred guests were entertained at the home of her brother Friday night. The Welty orchestra of St. Joseph gave the music and the spacious rooms were indeed most beautiful in their decorations. In the receiving line with Mr. and Mrs. Rankin were their daughter, Miss Helen Rankin, a beautiful young woman, who was the cynosure of all eyes during the evening, notwithstanding the attractiveness of the bride; Mr. and Mrs. J. W. Hanna, Mr. and Mrs. J. D. Rankin, Mrs. J. E. Travis, and Mr. and Mrs. Morrison Giffin. The parlors were decorated wholly in Marechal Neil roses, and in the library, where punch was served, the beautiful trailing vines of blooming white clematis was used. In the dining room the colors of pink and white prevailed. An immense basket of La France roses, the handle tied with tulle, was the centerpiece for the table. Ice cream in the form and color of La France roses was served with white cakes, also pink and white minis. The Rankin home is the finest in this section of the country, and the entire affair was in keeping with the surroundings. The out-of-town guests were Mr. and Mrs. H. K. Noel of Maitland, Miss Marie Travis of St. Joseph and Mrs. H. L. Raines of Tarkio.

THEATER TO HAVE GLASS CURTAIN

Weights 27 Tons and Can Be
Lowered in Seven Seconds.

PLAYHOUSE COST \$8,000,000

Twenty-five Hundred Square Feet of Glass Mosaic in the Curtain—Divided Into Two Hundred Panels, Each Three Feet Square, For Shipment. Its Construction a Huge Undertaking.

A glass curtain weighing nearly thirty tons is the latest thing in theatrical construction and in fire protection. This curtain was made in New York, but it is destined for the new \$8,000,000 theater in the City of Mexico. The National theater in the City of Mexico, now approaching completion, will be a beautiful addition to the works of art on this continent, and this curtain will not be the least of its beauties. The theater, in fact, will be one of the most important and beautiful structures in the world.

The building is constructed entirely of white marble, much of which has been supplied from the quarries of Mexico and the remainder from Carrara. It occupies a central location in the Alameda, or park, its four approaches following the parabolical lines employed in the general architectural design of the structure.

Beautiful Structure.
Over \$8,000,000 in gold will have been expended upon the theater before it is complete, a large part of which has been used for material and labor in Mexico, that so far as possible the nation shall benefit. Its seating capacity is about 8,000, and the building, with its ramps, fountains and gardens, covers an area of five acres, or more than two of our city blocks.

This theater is one of a number of public buildings which have been designed for the substantial improvement and adornment of the City of Mexico to be not only a fitting home for Mexican dramatic art, but as a perpetual monument to the progress of the republic under the wise administration of its venerable president.

Senor Adamo Boari, the distinguished architect of the City of Mexico, devoted much time and thought to the selection of a suitable curtain which must not only be fireproof, but decorative in character. Nature had already provided a scene which assisted him in the choice of an appropriate picture for this part of the work, and he determined to depict the perpetual snow capped peaks of Iztaccihuatl and Popocatepetl rising thousands of feet into the cloudless sky, a veritable poem of light.

Various attempts were made with paints, with Bohemian and Venetian glass, but without success until it was suggested that a mosaic curtain of glass would combine safety against fire with the decorative merits of a painting to express the romantic story of the two volcanoes.

SHARP PRACTICE.

(Washington Star.)

"The new idea in business is honesty, openness, frankness," said Alton B. Parker at a dinner at Esopus. "We used to conceal our plumbing, and very poor, unsanitary work it was. We expose it now, and it is altogether sound, wholesome and satisfactory. Well, business is like that."

"When I think of some of the tricks that used to obtain in reputable business firms, I am reminded of the seaside auctioneer."

"This scoundrel once held up a \$10 gold piece and said:

"Guess the date on this piece of money, friends. Make a guess and a small purchase, and the correct guesser takes the coin."

"So everybody in the crowd guessed; everybody bought some worthless rubbish, and the dealer netted a huge profit. Then, at the end, he looked at the \$10 gold piece, held it up and said:

"Now for it! Who guessed 1894?"

"Me! Me! Me!" cried every man jack in the shop.

"The dealer smiled.

"Then you guessed wrong," he said, slipping the coin into his pocket. "The date is 1812."

A NEEDED HOLIDAY.

The millionaire sat at his desk, Computing a corporate debt.

Outside was the roaring Of persons outpouring.

Their holiday pleasures to get. Said he: "It is tragic burlesque

That I'm working harder than they. Won't some legislature

Exhibit good nature And give us a rich man's day?"

The band of a labor parade Went oomph and boomery-boom.

Said he: "At their leisure They're going for pleasure.

While Labor day labor's my doom; The terms of this deal must be made

While workers are out to be gay. What joy to be shaken

Some morning and waken To find it is rich man's day!

"I wish of the good things of earth I had a legitimate share!

The way they're divided Is wholly one-sided.

And I am the one that's left bare. Yes, several millions I'm worth,

But I have no moment for play. I'd force a big 'roll' on

The capitol solon Who'd give us a rich man's day!"

Colonel Roosevelt says his nomination in 1912 would be a genuine calamity. Anyway, he would certainly think so by the time an invincible and everlasting Democracy hoebucked him at the November election.

The Hague, Sept. 12.—Owing to the alarming war news arising from the prolonged Franco-German negotiations over Morocco, the Dutch government is making full preparations to resist all possible interference with the neutrality of the Netherlands.

The Dutch fortifications along the German frontier have been occupied by strong garrisons and the coast defenses have been fully manned. An order has been issued calling out the national reserves for the army maneuvers.

GERMAN LEAGUE WANTS WAR

Adopts Resolutions Against Germany Getting Out of Morocco.

Berlin, Sept. 12.—At the annual convention of the German league resolutions were unanimously adopted protesting against the withdrawal of Germany from her political position in Morocco and against her acceptance of territorial indemnity in the French Congo.

The German imperial chancellor was asked to break off negotiations with France relative to Morocco rather than settle the dispute on that basis.

The speech of the chairman of the convention was to the effect that the acquisition by Germany of western Morocco corresponds with the wishes of the German people.

Another resolution adopted demanded the speedier building of warships.

People Flee in Panic From
Flames and Lava.

The fear of the people is augmented by the great heat and suffocating atmosphere. All the country roundabout is covered with ashes and seems under an immense pall.

It is reported that three new craters have opened. Thick smoke lies over them.

The people of the villages on the slope of Mount Etna have abandoned their homes. Several houses have been damaged by earthquakes and hundreds of men, women and children who are without shelter go about from place to place, carrying pictures of the saints, crying and imploring mercy.

FLYING POSTMAN FALLS

Aeroplane Goes Wrong, Dumps Hubert, Who Has Both Legs Broken.

London, Sept. 12.—Hubert, one of the aviators of the aerial postal service inaugurated by the British post office last Saturday, met with a bad accident and only the mail bags which the flying postman was carrying from Hendon to Windsor castle saved him from an almost certain death.

Hubert had just got away from Hendon with 200 pounds of mail when the machinery of his aeroplane went wrong and the machine crashed to the earth, burying the aviator under a mass of debris.

Both of Hubert's legs were broken and he suffered other injuries, but the mail bags on top of him acted as a buffer and saved him from being crushed to death by the weight of the engine.

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair is First Sign of Age—Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't look old before your time. Get a bottle of Wyeth's Sage and Sulphur today, and see what an improvement it will make in the appearance of your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

Missouri's Legal Holidays.

What the effect of our rapidly increasing number of legal holidays will be on business in the future is likely to become a problem. Already the state of Missouri has the following legal holidays: January 1, February 22, Washington's birthday; May 30, Decoration day; July 4, Independence day; first Monday in September, Labor day; October 12, Columbus day; Tuesday following the first Monday in November, general election day; December 25, Christmas day; Thanksgiving day, generally the last Thursday in November, is fixed by proclamation of the president. Saturday afternoon in cities of more than 100,000 inhabitants is a half holiday.

On all these days postoffices are all closed and nearly all banking institutions, making it a practical impossibility for certain classes of business to be attended to through ordinary channels. Many states have even more legal holidays than are recognized in Missouri, yet no day in the year has ever been set aside by an act of Congress as a national holiday. A few days are recognized as legal holidays in nearly all the states, but no single day is so recognized in all of them. Yet when one seeks to do any sort of banking business or postoffice business he is promptly met with the assurance that this or that day is a legal holiday and such business must wait. What might be the result if a legal transaction were stopped in consequence of parties to it being removed by distance and the only way to transact it should be by draft or money order?—Moberly Monitor.

PROHIBITION LOSES IN MAINE

Voted Out of Constitution by
900 Majority.

INTEREST IN RESULT INTENSE

Governor May Be Induced to Call Special Session of Legislature to Repeal Statute Law Now on Books. State-Wide Primaries Favored.

Portland, Me., Sept. 12.—Unofficial and only partly revised returns from 489 out of 521 cities, towns and plantations in Maine gave a majority of 904 for repeal of the prohibitory constitutional amendment. The missing twenty-two towns cast less than 285 votes at the state election three years ago.

State-wide primaries, another question voted upon, was favored by Androscoggin county, the only county on which complete figures are available, by 6,102 to 1,617.

One hundred and twenty thousand voters cast ballots on the liquor question.

As had been predicted, the cities were the chief strongholds of the repeal faction, but the majority of 12,000 in the total city vote was sufficient to offset the vote of the rural regions.

Much Interest Aroused.

Although the vote did not equal that of a year ago, when the Democrats swept the state, which for years had been a Republican stronghold, the election was an interesting contest. There was not a home in any part of the state which was not flooded with literature by both sides, while the voters were waited on by personal workers and harangued at public gatherings to cast their ballots for or against repeal. The result was that hundreds of voters who had not visited the polls for years were recorded.

Little excitement marked the voting. Although the polls in some of the cities were crowded during much of the time, it was an orderly crowd and gave the officials little or no trouble.

Bath, the first place to count the vote, favored repeal of the prohibitory law, 1,138 to 453. In 1884 Bath voted for prohibition, 920 to 414.

The city of Rockland voted for repeal, 975 to 534, and the city of Saco did likewise, 808 to 548.

There is said to be every possibility that Governor Plafiead may be prevailed on to call a special session of the legislature to take action on the repeal of the statute law, which, in effect, is the same as the constitutional amendment and the enactment of another law for the regulation of the liquor business. A local option law, such as prevails in Massachusetts, is what the license advocates seek.

BLOOD SPILLED IN CHINA

Troops Fire on Rioters in Sze Chuen and Twenty Are Killed.

Washington, Sept. 12.—Blood has been spilled in Sze Chuen, the turbulent province of China. Over twenty rioters and a number of soldiers have been killed in battle during the last few days, resulting from attacks of dissatisfied natives on the yamen, or residents of Cheng Tu, Sze Chuen. This information, the first news of bloodshed in the present disturbance, reached the state department.

To investigate the situation, which is threatening to Americans, United States Consul Pontius left Hankow for Chang Kiang.

The gravity of the conditions and the fearful possibilities of the mammoth uprising has brought the central government of China to a quick decision to suppress the trouble with a strong hand. The ringleaders of the agitators were arrested by the viceroy of the province. This infuriated their followers and resulted in an attack on the yamen by the mob. The soldiers on guard fired into the rioters, killing some twenty of them. The mob returned and in a subsequent assault on the viceroy's residence slew a number of the troops.

China's troubles continue through ravages of nature. Twenty-seven counties in northern Anhwei and Kiang Su have been devastated by the floods of the Yangtse Kiang.

Conditions in the Yangtse Kiang valley are reported as even more appalling. The central government of China has appropriated about \$420,000 for relief purposes, but that amount is regarded as wholly inadequate.

Newberry, former secretary of the navy, was arrested when his automobile ran down and killed a child, was withdrawn when the case came up. George W. Ellis of Milford, Mass., father of the child, declared he did not hold Mr. Newberry criminally liable.

PRICES NOW AND ONE YEAR AGO

Food Experts Seek to Show Cost
of Living Has Not Advanced.

FIGURES IN COMPARISON MADE.

Man Who Sets His Table Without Putting the Dainties There, It Is Claimed, Need Feel No Alarm for the Coming Winter.

New York, Sept. 12.—While thousands are starving in China and France is being torn with riots in protest against the high cost of food, there is renewed attention in this country to the fact that sugar has reached its highest point in twelve years; that coffee is soaring, and potatoes are selling as high as \$1.10 a bushel in the field. In view of this householders are asking themselves: "Will this winter see a recurrence of the conditions of 1909-10, when the cost of living reached its apex and declined slowly only after many so-called boycotts against meat and other high priced commodities were declared throughout the land?"

To this question economic experts here say no. No commodities will be higher, they say, except in some instances, than those of last winter, but they add that the man who sets his table with plain everyday fare, avoiding fancy brands and near luxuries, may await the approach of cold weather without undue anxiety. It is pointed out that, generally speaking, with the exception of coffee, sugar, potatoes and a few canned vegetables, the present month of September was ushered in with conditions more favorable to the consumer than was the case a year ago.

Mess pork is quoted at \$19 a barrel wholesale, as against \$25 in 1910; the wholesale price of ham is a little more than 15 cents a pound, as compared with 18 cents in the early fall of last year; western lard is selling at a fraction more than 9 cents, as against more than 12 cents in September, 1910, and butter and eggs are both comparatively reasonable and a few cents cheaper retail than in last September.

Flour Same as Last Year.

Flour of good quality is selling at lowest retail prices at \$5.95 a barrel, the same price that prevailed at this time last year, and bacon may be had at some stores for 20 cents a pound as against 23 cents and 25 cents a year ago. It is not unlikely that beef will go higher as the winter progresses.

The cost of poultry will be largely determined by cold storage holdings. Indications are that the shortage of potatoes is serious, not only in this country, but in Great Britain and Germany. In the fall of last year one could buy good potatoes in the field at 55 cents a bushel; today the price ranges from 85 cents to more than \$1. Canned peas, beans and tomatoes also will be higher, but rice remains cheap and, unless there is a marked advance in pork, it is argued that the man of slender means can provide for his family without serious strain.

Sugar and coffee are both phenomenally high, but those who are studying the market predict that decreased consumption, which invariably follows a prohibitive advance, will soon restore these two breakfast table necessities to a more normal level.

Stocking a Bad Savings Bank.

Chicago, Sept. 12.—With black marks on her throat, indicating that she may have been choked to death by the body of Mrs. Jennie Mozninski was found in her home. Joseph Mozninski, her husband, is being held pending investigation. One of the front windows of the house was open and the woman's savings of \$64, which she kept in a stocking, were missing.

Say, Have You Ever

Bought any coal from Frank G. Shoemaker and had it delivered with the big white wagon? Those white wagons don't make a bad appearance on the streets of the city do they? And the horses look like they had enough to eat too. So do the drivers. The scales and yards are kept up in the same way, and that system of doing business makes it a legitimate mercantile business, like any other business of the city, and worthy of your patronage if prices and coals are right, and they are—because I am behind every pound of coal sold. If it is not right I will see that all is satisfactory or money refunded. Let me figure with you for your winter coal.

Yours truly,

F. G. SHOEMAKER, Sr.

SECURED TWO OWLS FROM NEST ON STAND PIPE

While Alderman F. C. Conrad and Cashier Lou Denny of the City Water company were examining the stand pipe Monday they came on a nest of owls of rather unusual appearance. They secured two of the young owls and they are now on exhibition in the clothing store window of Berney Harris, who is president of the Owls lodge of this city. The birds are of light cream and tan color and are said to be valuable. They have a monkey like face and are said to be a prairie owl sometimes found in the northern states.

FUNERAL SERVICES WEDNESDAY P. M.

The funeral services for Mary Lu-
cretia Middleton, the daughter of Al
R. Middleton, living at 1004 East Ed-
ward street, will be held Wednesday
afternoon at the family home, con-
ducted by Rev. Claude J. Miller of the
First Christian church.

Miss Middleton was born in Mary-
ville, March 15, 1888. She was a
young woman of kind and gentle dis-
position and she lived a life of ser-
vice to her parents, brothers and sis-
ters. Her mother died about five
years ago, and her faithful, loving
devotion to her during her illness is
well remembered by all who knew her.
Mary was a true Christian girl, a regu-
lar attendant at church and Sunday
school, and before she was compelled
to give up school days because of
home cares, she was a good student
at school and was a favorite with her
teachers, because of her sweet gentle
disposition. Her health began failing
a year ago, and everything possible was
done by her family and physicians for
her, but the ravages of the disease
could not be stayed. Burial will take
place in Oak Hill cemetery. She is
survived by her father, two brothers,
Frank and James, and a sister, Pearl.

night, when a complete reunion of the
family will be held.

both located in St. Louis for the prac-
tice of law, where they have met one
another in the trial of cases and have
been associated in the trial of cases.
He says Forrest is doing finely and
says it's no wonder, because he is all
right.

VICTIM OF A JOKE

M. E. FORD ASKED TO SPEAK TO
LAW AND ORDER LEAGUE.

PREPARED A SPEECH

And After Working On It for Two
Days Was Told About It—He
Still Has The Speech.

Assistant Prosecuting Attorney M.
E. Ford was the victim of a joke that
was played on him last week by At-
torney W. E. Wiles. It happened this
way:

Attorney Wiles called up Attorney
Ford on the telephone on a matter
of business. Mr. Wiles, when seeing
that Mr. Ford did not know who it
was that was talking to him, said:

"This is Rev. Parvin. We want you
to deliver a talk to the Law and Order
League that will meet Saturday night
in the M. E. church, South."

Mr. Ford tried to beg off, but finally
said that he would get up a speech and
would be on hand. He proceeded at
once to get busy on his speech, and
worked all day Friday up to 10:30
o'clock that evening and also on Sat-
urday up to 4 o'clock in the after-
noon. He spent most of his time dur-
ing these two days on his speech.
When Mr. Wiles saw that Mr. Ford
was so busy at work on the speech he
concluded that it was time to tell
him, seeing that the joke had gone far
enough. Accordingly, he did. It is
not necessary to add what took place,
as a person would know how one
would feel when he has been working
for some time on a speech to be de-
livered, to find out that it was all a
joke.

Attorney Ford says that he still has
that undelivered speech, and is ready
to deliver it at any time he may be
called upon.

been done with the property, but it
promises to be a rich one for the
owner.

Childress, have purchased a hand-

Sr., and his wife. Mr. Childress is
recovering from a severe trouble with
his eyes as a result of blood poisoning
in one of his hands. He had not been
sick a day before in all his life of 78
years, and it is no wonder he wanted
to celebrate his recovery from the
first pain he had ever suffered by buy-
ing a new automobile.

Managing His Own Affairs—A
Son Appointed Guardian.

Stephen K. Warren, an aged man
of 73 years, was brought to Maryville
Tuesday morning, and was tried in
probate court before a jury of twelve
men, an information having been
brought by the family that he was of
unsound mind and incapable of man-
aging his affairs. From the testi-
mony Mr. Warren is the owner of a
120-acre farm and some personal
property, and on account of his age he
is feeble and mentally and physically
unable to manage his affairs.

The jury, after being out a short
time, returned a verdict of unsound
mind and incapable of managing his
affairs. Judge Conn appointed a son,
S. J. Warren, guardian of his person
and estate.

Mr. Underwood says a safe Democrat can be elected president. Most any Democrat should be safe if the Republicans nominate Taft.

For many years the United States has been affording sufficient protection to the sugar business of this country to enable it to build up the dirtiest and most shameless of all the great trusts. It showed its appreciation of needless protection by becoming an importer and bribing government clerks and robbing the hand that fed it by false weights. Just now there is said to be a shortage in the crop of sugar beets in Europe, and the ladies can tell you who pays the tariff on sugar.

It would have been a miracle if Col. John Jacob Astor, the divorced millionaire, had not been able to find one minister out of the 168,000 in this country, willing to give him another trial to the accompaniment of a good fat fee. The agitation, however, is well, and it is to be hoped that the seeds are sown that will bear fruit in future and give the millionaire set a greater respect for the sanctity of the marriage vow. The greatest enemy to honest marriage is the dishonest divorce. Any way, let us hope that Col. Astor and his child bride be allowed to sink into that oblivion to which decency would consign them.

Taft's Record "Indefensible."

Nearly three-fourths of Mr. Taft's term of office has passed into history. He has had sufficient time to have made progress on lines along which he promised to proceed when he was a candidate for the high office he holds. He made his campaign on a tariff revision downward issue, and today the country is in the grip of a higher tariff tax than ever before in its history, in spite of the fact that the president has had two separate and distinct opportunities to keep his word. In his three years of office President Taft can be credited with having kept Ballinger in office until the country was nauseated; to have almost succeeded in his attempt to give Alaska to the Guggenheims, and with having quietly co-operated with the food dopers in their campaign to drive Dr. Harvey W. Wiley out of public life. To this "indefensible" record should be added the president's action in framing rejected peace treaties with two nations with whom we are not in the slightest danger of ever going to war.

Welcomed a Tarkio Bride.

Mrs. H. L. Raines and little daughters returned Monday night from a several days' visit in Tarkio with her parents, Mr. and Mrs. T. J. Emmert. Last Friday night Mrs. Raines attended the most brilliant social affair that has ever been given in Tarkio. It was a reception given by Mr. and Mrs. W. F. Rankin, in their beautiful home, to welcome home the bride sister of Mr. Rankin, Mrs. Morrison Giffin, and her husband, who arrived in Tarkio Friday morning from Geneva, Switzerland, where they were married on Wednesday, July 16, in a little chapel there, the father of the bridegroom performing the ceremony. Notice of the wedding and their wedding guests was given in The Democrat-Forum social column the day previous to the wedding day. Mrs. Giffin, the bride, is known socially in Maryville, as she visited Miss Martha Reid in Maryville last spring, and was her guest at the Twentieth Century club's reception at the home of Mrs. S. G. Giffam. Three hundred guests were entertained at the home of her brother Friday night. The Welty orchestra of St. Joseph gave the music and the spacious rooms were indeed most beautiful in their decorations. In the receiving line with Mr. and Mrs. Rankin were their daughter, Miss Helen Rankin, a beautiful young woman, who was the cynosure of all eyes during the evening, notwithstanding the attractiveness of the bride; Mr. and Mrs. J. W. Hanna, Mr. and Mrs. J. D. Rankin, Mrs. J. E. Travis, and Mr. and Mrs. Morrison Giffin. The parlors were decorated wholly in Marchal Neil roses, and in the library, where punch was served, the beautiful trailing vines of blooming white clematis was used. In the dining room the colors of pink and white prevailed. An immense basket of La France roses, the handle tied with tulle, was the centerpiece for the table. Ice cream in the form and color of La France roses was served with white cakes, also pink and white mints. The Rankin home is the finest in this section of the country, and the entire affair was in keeping with the surroundings. The out-of-town guests were Mr. and Mrs. H. K. Noel of Maitland, Miss Marie Travis of St. Joseph and Mrs. H. L. Raines of Tarkio.

THEATER TO HAVE GLASS CURTAIN

Weights 27 Tons and Can Be
Lowered in Seven Seconds.

PLAYHOUSE COST \$8,000,000

Twenty-five Hundred Square Feet of Glass Mosaic in the Curtain—Divided into Two Hundred Panels, Each Three Feet Square, For Shipment. Its Construction a Huge Undertaking.

A glass curtain weighing nearly thirty tons is the latest thing in theatrical construction and in fire protection. This curtain was made in New York, but it is destined for the new \$8,000,000 theater in the City of Mexico.

The National theater in the City of Mexico, now approaching completion, will be a beautiful addition to the works of art on this continent, and this curtain will not be the least of its beauties. The theater, in fact, will be one of the most important and beautiful structures in the world.

The building is constructed entirely of white marble, much of which has been supplied from the quarries of Mexico and the remainder from Carrara. It occupies a central location in the Alameda, or park, its four approaches following the parabolical lines employed in the general architectural design of the structure.

Beautiful Structure. Over \$8,000,000 in gold will have been expended upon the theater before it is complete, a large part of which has been used for material and labor in Mexico, that so far as possible the nation shall benefit. Its seating capacity is about 8,000, and the building, with its ramps, fountains and gardens, covers an area of five acres, or more than two of our city blocks.

This theater is one of a number of public buildings which have been designed for the substantial improvement and adornment of the City of Mexico to be not only a fitting home for Mexican dramatic art, but as a perpetual monument to the progress of the republic under the wise administration of its venerable president.

Senor Adamo Boari, the distinguished architect of the City of Mexico, devoted much time and thought to the selection of a suitable curtain which must not only be fireproof, but decorative in character. Nature had already provided a scene which assisted him in the choice of an appropriate picture for this part of the work, and he determined to depict the perpetual snow capped peaks of Iztacchault and Popocatepetl rising thousands of feet into the cloudless sky, a veritable poem of light.

Various attempts were made with paints, with Bohemian and Venetian glass, but without success until it was suggested that a mosaic curtain of glass would combine safety against fire with the decorative merits of a painting to express the romantic story of the two volcanoes.

SHARP PRACTICE.

(Washington Star.)

"The new idea in business is honesty, openness, frankness," said Alton B. Parker at a dinner at Esopus. "We used to conceal our plumbing, and very poor, unsanitary work it was. We expose it now, and it is altogether sound, wholesome and satisfactory. Well, business is like that."

"When I think of some of the tricks that used to obtain in reputable business firms, I am reminded of the seaside auctioneer."

"This scoundrel once held up a \$10 gold piece and said:

"Guess the date on this piece of money, friends. Make a guess and a small purchase, and the correct guesser takes the coin."

"So everybody in the crowd guessed; everybody bought some worthless rubbish, and the dealer netted a huge profit. Then, at the end, he looked at the \$10 gold piece, held it up and said:

"Now for it! Who guessed 1894?"

"Me! Me! Me!" cried every man jack in the shop.

"The dealer smiled.

"Then you guessed wrong," he said, slipping the coin into his pocket. "The date is 1812."

A NEEDED HOLIDAY.

The millionaire sat at his desk, computing a corporate debt.

Outside was the roaring

Of persons outpouring.

Their holiday pleasures to get.

Said he: "It is tragic burlesque

That I'm working harder than they.

Won't some legislature

Exhibit good nature

And give us a rich man's day?"

The band of a labor parade

Went oomph and boomery-boom.

Said he: "At their leisure

They're going for pleasure.

While Labor day labor's my doom;

The terms of this deal must be made

While workers are out to be gay.

What joy to be shaken

Some morning and waken

To find it is rich man's day!"

"I wish of the good things of earth

I had a legitimate share!

The way they're divided

Is wholly one-sided,

And I am the one that's left bare.

Yes, several millions I'm worth, -

But I have no moment for play.

I'd force a big 'roll' on

The capitol solon

Who'd give us a rich man's day!"

FORTIFICATIONS GARRISONED.

Coast Defenses of Netherlands Are Being Fully Manned and Equipped. Not Inclined to Back Up on Position Taken in Moroccan Dispute.

The Hague, Sept. 12.—Owing to the alarming war news arising from the prolonged Franco-German negotiations over Morocco, the Dutch government is making full preparations to resist all possible interference with the neutrality of the Netherlands.

The Dutch fortifications along the German frontier have been occupied by strong garrisons and the coast defenses have been fully manned. An order has been issued calling out the national reserves for the army maneuvers.

The government is buying provisions to keep the men and horses for six months at prices four times higher than normal and is ordering large quantities of rice from the colonies.

GERMAN LEAGUE WANTS WAR

Adopts Resolutions Against Germany Getting Out of Morocco.

Berlin, Sept. 12.—At the annual convention of the German league resolutions were unanimously adopted protesting against the withdrawal of Germany from her political position in Morocco and against her acceptance of territorial indemnity in the French Congo.

The German imperial chancellor was asked to break off negotiations with France relative to Morocco rather than settle the dispute on that basis.

The speech of the chairman of the convention was to the effect that the acquisition by Germany of western Morocco corresponds with the wishes of the German people.

Another resolution adopted demanded the speedier building of warships.

Many Persons Are Arrested for Attempting to Release Cholera Suspects.

Chiasso, Switzerland, Sept. 12.—Massafra, in the Italian province of Lecce, where, according to information, mobs burned the cholera hospital and carried the cholera stricken patients through the streets, was declared under martial law.

Twenty additional persons have been arrested for attempting to release cholera suspects who are undergoing observation.

Excesses arising from the government's preventive measures to combat the plague are reported from several other Italian towns. In some places doctors, suspected by the inhabitants of distributing poisons, have been attacked.

Chicago, Sept. 12.—A resolution condemning the marriage of Colonel John Jacob Astor and Miss Madeline Force and Rev. Joseph Lambert for performing the ceremony was tabled for one week by the Congregational Ministers' association.

Objection was made to singling out the Astors for reproof when such marriages are common throughout the country, but it was stated that Rev. Mr. Lambert was a proper subject for action by the denomination.

MT. ETNA IN ERUPTION VILLAGES ADANDONED

People Flee in Panic From
Flames and Lava.

Catania, Sicily, Sept. 12.—The eruption of Mount Etna has become more intense. The showers of ashes and cinders are heavier and the rumbling of earthquakes at short intervals is heard for miles. The shocks are growing in violence and a panic prevails.

The fear of the people is augmented by the great heat and suffocating atmosphere. All the country roundabout is covered with ashes and seems under an immense pall.

It is reported that three new craters have opened. Thick smoke lies over them.

The people of the villages on the slope of Mount Etna have abandoned their homes. Several houses have been damaged by earthquakes and hundreds of men, women and children who are without shelter go about from place to place, carrying pictures of the saints, crying and imploring mercy.

FLYING POSTMAN FALLS

Aeroplane Goes Wrong, Dumps Hubert, Who Has Both Legs Broken.

London, Sept. 12.—Hubert, one of the aviators of the aerial postal service inaugurated by the British post office last Saturday, met with a bad accident and only the mail bags which the flying postman was carrying from Hendon to Windsor castle saved him from an almost certain death.

Hubert had just got away from Hendon with 200 pounds of mail when the machinery of his aeroplane went wrong and the machine crashed to the earth, burying the aviator under a mass of debris.

Both of Hubert's legs were broken and he suffered other injuries, but the mail bags on top of him acted as a buffer and saved him from being crushed to death by the weight of the engine.

Machinists' Executive Board Refuses to Authorize Walkout.

Chicago, Sept. 12.—The strike threatened by the shopmen of the Illinois Central railroad, because of the refusal of the railroad to recognize the federation of mechanical employees, finally was averted and the federation will reorganize. The executive board of the International Association of Machinists met at Davenport, Ia., and refused to authorize a strike on the ground that the system federation had not conducted its negotiations properly and this left the federation without the necessary support for a strike.

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair is First Sign of Age—Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't look old before your time. Get a bottle of Wyeth's Sage and Sulphur today, and see what an improvement it will make in the appearance of your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

Missouri's Legal Holidays.

What the effect of our rapidly increasing number of legal holidays will be on business in the future is likely to become a problem. Already the state of Missouri has the following legal holidays: January 1, February 22, Washington's birthday; May 30, Decoration day; July 4, Independence day; first Monday in September, Labor day; October 12, Columbus day; Tuesday following the first Monday in November, general election day; December 25, Christmas day; Thanksgiving day, generally the last Thursday in November, is fixed by proclamation of the president. Saturday afternoon in cities of more than 100,000 inhabitants is a half holiday.

On all these days postoffices are all closed and nearly all banking institutions, making it a practical impossibility for certain classes of business to be attended to through ordinary channels. Many states have even more legal holidays than are recognized in Missouri, yet no day in the year has ever been set aside by an act of Congress as a national holiday. A few days are recognized as legal holidays in nearly all the states, but no single day is so recognized in all of them. Yet when one seeks to do any sort of banking business or postoffice business he is promptly met with the assurance that this or that day is a legal holiday and such business must wait. What might be the result if a legal transaction were stopped in consequence of parties to it being removed by distance and the only way to transact it should be by draft or money order?—Moberly Monitor.

PROHIBITION LOSES IN MAINE

Vo'ed Out of Constitution by
900 Majority.

INTEREST IN RESULT INTENSE

Governor May Be Induced to Call Special Session of Legislature to Repeal Statute Law Now on Books. State-Wide Primaries Favored.

Portland, Me., Sept. 12.—Unofficial and only partly revised returns from 489 out of 521 cities, towns and plantations in Maine gave a majority of 994 for repeal of the prohibitory constitutional amendment. The missing twenty-two towns cast less than 285 votes at the state election three years ago.

State-wide primaries, another question voted upon, was favored by Androscoggin county, the only county on which complete figures are available, by 6,102 to 1,617.

One hundred and twenty thousand voters cast ballots on the liquor question.

As had been predicted, the cities were the chief strongholds of the repeal faction, but the majority of 12,000 in the total city vote was sufficient to offset the vote of the rural regions.

Much Interest Aroused.

Although the vote did not equal that of a year ago, when the Democrats swept the state, which for years had been a Republican stronghold, the election was an interesting contest. There was not a home in any part of the state which was not flooded with literature by both sides, while the voters were waited on by personal workers and harangued at public gatherings to cast their ballots for or against repeal. The result was that hundreds of voters who had not visited the polls for years were recorded.

Little excitement marked the voting. Although the polls in some of the cities were crowded during much of the time, it was an orderly crowd and gave the officials little or no trouble.

Bath, the first place to count the vote, favored repeal of the prohibitory law, 1,138 to 453. In 1884 Bath voted for prohibition, 920 to 414.

The city of Rockland voted for repeal, 975 to 534, and the city of Saco likewise, 808 to 548.

There is said to be every possibility that Governor Plaisted may be prevailed on to call a special session of the legislature to take action on the repeal of the statute law, which, in effect, is the same as the constitutional amendment and the enactment of an other law for the regulation of the liquor business. A local option law, such as prevails in Massachusetts, is what the license advocates seek.

BLOOD SPILLED IN CHINA

Troops Fire on Rioters in Sze Chuen and Twenty Are Killed.

Washington, Sept. 12.—Blood has been spilled in Sze Chuen, the turbulent province of China. Over twenty rioters and a number of soldiers have been killed in battle during the last few days, resulting from attacks of dissatisfied natives on the yamen, or residents of Cheng Tu, Sze Chuen. This information, the first news of bloodshed in the present disturbance, reached the state department.

To investigate the situation, which is threatening to Americans, United States Consul Pontius left Hankow for Chang Kiang.

The gravity of the conditions and the fearful possibilities of the main moth uprising has brought the central government of China to a quick decision to suppress the trouble with a strong hand. The ringleaders of the agitations were arrested by the viceroy of the province. This inflamed their followers and resulted in an attack on the yamen by the mob. The soldiers on guard fired into the rioters, killing some twenty of them. The mob returned and in a subsequent assault on the viceroy's residence slew a number of the troops.

China's troubles continue through ravages of nature. Twenty-seven counties in northern Anhwei and Kiang Su have been devastated by the floods of the Yangtse-Kiang.

Conditions in the Yangtse-Kiang valley are reported as even more appalling. The central government of China has appropriated about \$420,000 for relief purposes, but that amount is regarded as wholly inadequate.

PRICES NOW AND ONE YEAR AGO

Food Experts Seek to Show Cost
of Living Has Not Advanced.

FIGURES IN COMPARISON MADE.

Man Who Sets His Table Without Putting the Dainties There, It is Claimed, Need Feel No Alarm for the Coming Winter.

New York, Sept. 12.—While thousands are starving in China and France is being torn with riots in protest against the high cost of food, there is renewed attention in this country to the fact that sugar has reached its highest point in twelve years; that coffee is soaring, and potatoes are selling as high as \$1.10 a bushel in the field. In view of this householders are asking themselves: "Will this winter see a recurrence of the conditions of 1909-10, when the cost of living reached its apex and declined slowly only after many so-called boycotts against meat and other high priced commodities were declared throughout the land?"

To this question economic experts seen here say no. No commodities will be higher, they say, except in some instances, than those of last winter, but they add that the man who sets his table with plain everyday fare, avoiding fancy brands and near luxuries may await the approach of cold weather without undue anxiety. It is pointed out that, generally speaking, with the exception of coffee, sugar, potatoes and a few canned vegetables, the present month of September was ushered in with conditions more favorable to the consumer than was the case a year ago.

Mess pork is quoted at \$19 a barrel wholesale, as against \$25 in 1910; the wholesale price of ham is a little more than 15 cents a pound, as compared with 18 cents in the early fall of last year; western lard is selling at a fraction more than 9 cents, as against more than 12 cents in September, 1910, and butter and eggs are both comparatively reasonable and a few cents cheaper retail than in last September.

Flour Same as Last Year.

Flour of good quality is selling at lowest retail prices at \$5.95 a barrel the same price that prevailed at this time last year, and bacon may be had at some stores for 20 cents a pound as against 23 cents and 25 cents a year ago. It is not unlikely that beef will go higher as the winter progresses.

The cost of poultry will be largely determined by cold storage holdings. Indications are that the shortage of potatoes is serious, not only in this country, but in Great Britain and Germany. In the fall of last year one could buy good potatoes in the field at 55 cents a bushel; today the price ranges from 85 cents to more than \$1. Canned peas, beans and tomatoes also will be higher, but rice remains cheap and, unless there is a marked advance in pork, it is argued that the man of slender means can provide for his family without serious strain.

Sugar and coffee are both phenomenally high, but those who are studying the market predict that decreased consumption, which invariably follows a prohibitive advance, will soon restore these two breakfast table necessities to a more normal level.

Say, Have You Ever

Bought any coal from Frank G. Shoemaker and had it delivered with the big white wagon? Those white wagons don't make a bad appearance on the streets of the city do they? And the horses look like they had enough to eat too. So do the drivers. The scales and yards are kept up in the same way, and that system of doing business makes it a legitimate mercantile business, like any other business of the city, and worthy of your patronage if prices and coals are right, and they are—because I am behind every pound of coal sold. If it is not right I will see that all is satisfactory or money refunded. Let me figure with you for your winter coal.

Yours truly,

F. G. SHOEMAKER, Sr.
